Forecast for Monday 05 Oct 2020

Weather: A mix of showers and clear then sunny spells overnight and early morning. Showers becoming frequent and heavy at times, bringing a small risk of hail and thunder, before merging to longer periods of rain in the far west late morning, then across all by mid-afternoon. Rain clearing east during the evening with isolated showers and clear spells following from the west.

Chance of cloud free mountain/hill tops above 600m: Initially 70% at first with bases broken from 500-700m, becoming during the afternoon 10% with bases quite extensive from 450-600m.

Visibility: Out with low cloud and showers good or very good, becoming moderate or poor as rain spreads from the west later.
